LASYA SRI PRIYA POTHINEEDI

AI/ML Engineer | Data Analyst | Generative AI Enthusiast

lasyapothineedi@gmail.com · +91-9110710592 · LinkedIn · GitHub

Education

Shri Vishnu Engineering College For Women, Bhimavaram — **2022 – 2026**
B.E. in Artificial Intelligence & Data Science — *CGPA: 8.83 / 10.00*

Aditya Junior College, Bhimavaram — 2022
12th Standard (State Board) — 92.3%

Sri Chaitanya School, Bhimavaram — 2020
10th Standard (State Board) — 96.8%

Technical Skills

- **Programming:** Python, SQL, Java, C
- **AI/ML & Generative AI:** Machine Learning, LLMs, RAG, Prompt Engineering
- **Data Analytics:** Pandas, NumPy, Power BI, Tableau, Matplotlib, Seaborn, Excel
- **Frameworks & Tools:** Flask, Streamlit, Whisper, KeyBERT, Git, GitHub
- **Web:** HTML, CSS, JavaScript
- **Soft Skills:** Leadership, Communication, Adaptability, Team Collaboration

Internship Experience

Venura - *AI/ML Intern* — *May 2026 – June 2026*
- Built a **Fake News Detection** model and **DocuTrust**, a RAG-based document Q&A system using LangGraph and ChromaDB, reducing manual verification effort.

AptPath - *AI Developer Intern* — *July 2025 – Aug 2025*
- Developed a **video processing pipeline** using Whisper (speech-to-text) and KeyBERT for keyword extraction to identify key moments, reducing manual content review effort.

Infosys Springboard - *AI/ML Intern* — *Oct 2024 – Dec 2024*
- Built a **voice-based form filling application** using Python and Flask with Whisper-based speech-to-text, reducing manual input effort; earned certification from Infosys Springboard.

Projects

DocuTrust: AI Document Q&A System — *Python, FastAPI, LangGraph, ChromaDB, MongoDB*
- Developed a **RAG-based Question Answering system** that extracts information from PDFs and provides accurate, citation-backed answers using vector embeddings
- Enhanced answer accuracy by implementing relevance filtering and fallback retrieval techniques, reducing incorrect or misleading responses

Reelify AI: Video-to-Reel Generator — *Python, Whisper, KeyBERT, FFmpeg*
- Built an **AI video-to-reel generator** that extracts key segments from videos using transcription and keyword ranking
- Reduced manual editing effort by **~70%** through automated processing pipeline

Voice-Based Form Filling System — *Python, Flask, Whisper*
- Developed a **voice-enabled web app** for real-time form filling using speech-to-text and field mapping
- Achieved response latency under **2 seconds**, improving user interaction efficiency

Extracurricular Activities

- **Group Captain** — Managed and coordinated school events with **100+ students**, handling team coordination and event planning.
- **Cultural Fest Coordinator** — Managed stall operations at a college fest with **1,000+ attendees** and coordinated with 5+ vendors for smooth execution.
